

LA SELVA BIBLIOGRAPHY (CONFERENCES, PROCEEDINGS, OTHERS)
(Up date October 2, 2003)

1. Arguedas Gamboa, M., E. Braker, and R. J. Marquis. 1997. The effects of neighborhood and canopy cover on growth performance in a native mixed tree plantation. In: *Tropical Diversity Origins, Maintenance, and Conservation. ATB & OTS Symposium and Annual Meeting Abstracts*, 36, San José: Organization for Tropical Studies.
2. Arroyo, P., J. Haggard, and B. Alvarado. 1996. Proyecto Agroforestal Sarapiqueño. In *Memoria. Taller Nacional de Investigación Forestal y Agroforestal (4, Guácimo, Limón, Costa Rica (9-11 diciembre 1996))*, eds M. L. Jiménez, and M. I. Chavarría, 47-55, San José: MINAE, Programa Desarrollo Campesino Forestal (DECAFOR).
3. Atwood, J. T. 1987. An approach to regional orchid floras: the florula. In: *Proceedings of the 12th World Orchid Conference*, (eds.) K. Kondo, and K. Hashimoto, 46-50, Hiroshima-Shi, Japan.
4. Baker, D. C., and B. L. Gartner. 1996. Specific gravity comparisons between planted and naturally occurring trees of ten tropical species. *Bulletin of the Ecological Society of America* 77, no. Suppl. 3, Part 2: 21.
5. Bawa, K. S., D. A. Murawski, P. Hall, and M. R. Chase. 1993. Conservation genetics of tropical forest trees . In: *The Association for Tropical Biology & The Organization for Tropical Studies Annual Meeting. Abstracts*, 45, San Juan, PR: ATB/OTS.
6. Bigelow, S. W., J. J. Ewel, A. J. Hiremath, and M. Cifuentes Jara. 1998. Effects of plant life form diversity on soil nutrients and leachate. In: *The Association for Tropical Biology & Annual Meeting of the American Institute of Biological Sciences. Abstracts*, 21, Baltimore, MD: ATB/AIBS.
7. Blake, J. G., and B. A. Loiselle. 1991. Altitudinal migrants at Estación Biológica La Selva and Parque Nacional Braulio Carrillo, Costa Rica. In *IV Congreso de Ornitología Neotropical*, Ponencia 204 Quito: Corporación Ornitológica del Ecuador, CECIA.
8. ———. 1992. Habitat use by neotropical migrants at La Selva Biological Station and Braulio Carrillo National Park, Costa Rica. In: *Ecology and Conservation of Neotropical Migrant Landbirds. Symposium on the Ecology and Conservation of Neotropical Migrant Landbirds.*, (eds.) J. M. Hagan III, and D. W. Johnston, 257-72, Washington, DC: Smithsonian Institution.
9. Braker, E. 1997. The effects of neighborhood and canopy cover on multitrophic interactions in a native mixed tree plantation . In: *Tropical Diversity Origins, Maintenance, and Conservation. ATB & OTS Symposium and Annual Meeting Abstracts*, 42, San José: Organization for Tropical Studies.
10. Brown, B. V. 1997. Ant-decapitating flies in a tropical forest: how can there be so many species? In: *Tropical Diversity Origins, Maintenance, and Conservation. ATB & OTS Symposium and Annual Meeting Abstracts*, 43, San José: Organization for Tropical Studies.
11. Butterfield, R. 1992. Agroforestry and use of indigenous species for biodiversity and food/fuelwood production. In *Sustainable Development and Biodiversity: Conflicts and Complementarities* CIIFAD, 17-18, Cornell Univ. Press.
12. ———. 1990. Native species for reforestation and land restoration: a case study for Costa Rica. In: *Proceedings of the XIX World Congress*, 3-14 Int'l. Union of Forest Research Organizations.
13. Cacho, L., D. Lawrence, R. L. Chazdon, and A. Redondo. 2001. Neighborhood effects on litter production. In: *Annual Meeting of The Ecological Society of America. 86th, Abstracts*, Madison, WI: The Ecological Society of America.

14. Calvo, J., J. Hagggar, and P. Arroyo. 1996. *Memoria. Taller Nacional sobre Especies Forestales Nativas (1, Estación Biológica La Selva, Puerto Viejo, Sarapiquí, Costa Rica, 2-3 noviembre 1995)*. Cartago: Instituto Tecnológico de Costa Rica.
15. Camacho, P. 1996. Experiencias iniciales en el manejo de plantaciones forestales con especies nativas. In *Memoria. Taller Nacional sobre Especies Forestales Nativas (1, Estación Biológica La Selva, Puerto Viejo, Sarapiquí, Costa Rica, 2-3 noviembre 1995)*, eds J. Calvo, J. Hagggar, and P. Arroyo, 30-40, Cartago: Instituto Tecnológico de Costa Rica.
16. Cardelús, C., and J. E. Jr. Watkins. 1998. Epiphytic fern diversity and stratification on trunks of *Hieronima alchorneoides* (Euphorbiaceae) at La Selva Biological Station, Costa Rica. *Forest*. In *Canopies Conference 1998: Global perspectives. Abstracts*, p. 270, Selbyana 19 (2).
17. Carney, K., P. A. Matson, B. Bohannan, and J. J. Ewel. 2001. The effect of plant community composition on soil microbial community composition. In: *Annual Meeting of The Ecological Society of America. 86th, Abstracts*, Madison, WI: The Ecological Society of America.
18. Carrillo, E., and C. Vaughan. 1994. La vida silvestre en Mesoamérica: diagnóstico y estrategia para su conservación. In: *I Taller Mesoamericano sobre el Estado de la Vida Silvestre en Mesoamérica*. Heredia: Editorial de la Universidad Nacional.
19. Chatterjee, K., D. Lawrence, and A. Mills. 2001. The relationship between three tropical tree species and their surrounding soil microbial communities. In: *Annual Meeting of The Ecological Society of America. 86th, Abstracts*, Madison, WI: The Ecological Society of America.
20. Clark, D. A. 1994. Costa Rica [country presentation]. In: *International Networking in Long-term Ecological research. Proceedings*, 23-24. Seattle, WA: U.S. LTER Network Office.
21. Clark, D. A., D. B. Clark, and S. F. Oberbauer. 2001. Terrestrial NPP is being strongly underestimated: example data from an intensively-measured tropical rain forest. In: *Annual Meeting of The Ecological Society of America. 86th, Abstracts*, Madison, WI: The Ecological Society of America.
22. Clark, D. A., D. B. Clark, M. R. Sandoval, and M. V. Castro Campos. 1993. Edaphic, topographic, and human effects on palm species distributions in a neotropical rain forest. In: *The Association for Tropical Biology & The Organization for Tropical Studies Annual Meeting. Abstracts*, 55, San Juan, PR: ATB/OTS.
23. Clark, D. A., S. F. Oberbauer, D. B. Clark, E. Veldkamp, J. O'Brien, and H. W. Loescher. 1998. Assessing the carbon dynamics and stocks of a neotropical rain forest. In: *The Association for Tropical Biology & Annual Meeting of the American Institute of Biological Sciences. Abstracts*, 26, Baltimore, MD: ATB/AIBS.
24. Clark, D. B. 1999. Distributions of tree species in relation to edaphic conditions over mesoscale tropical rain forest landscapes. In: *International Botanical Congress. XVI*, 152 St Louis, MO: International Botanical Congress.
25. Clark, D. B., and D. A. Clark. 1999. Crecimiento y mortalidad de árboles en bosque tropical húmedo maduro en la Estación Biológica La Selva, Puerto Viejo de Sarapiquí. In: *Taller sobre la dinámica de los bosques en Costa Rica y sus implicaciones para el manejo forestal. (Memoria)*, La Geroma, Pavas, San José CR, 9 de abril, 1999, ed J. Valerio Garita, 32-33 Cartago: Instituto Tecnológico de Costa Rica.
26. Clark, D. B., and D. A. Clark. 1998. Pioneer tree species: an ecologically meaningful concept? In: *The Association for Tropical Biology & Annual Meeting of the American Institute of Biological Sciences. Abstracts*, 1, Baltimore, MD: ATB/AIBS.

27. Clark, D. B., D. A. Clark, and M. Palmer. 1997. Tree species diversity and mesoscale edaphic heterogeneity in a lowland tropical rain forest. In: *Tropical Diversity Origins, Maintenance, and Conservation. ATB & OTS Symposium and Annual Meeting Abstracts*, 48, San José: Organization for Tropical Studies.
28. Clark, D. B., M. Clark, D. A. Clark, J. Mackensen, and E. Veldkamp. 2001. Tree growth variation across tropical rain forest landscapes and its contribution to tree species diversity. In: *Annual Meeting of The Ecological Society of America. 86th, Abstracts*, Madison, WI: The Ecological Society of America.
29. Cole, D. W., and D. W. Johnson. 1978. Mineral cycling in tropical forests. In *Forest Soils and Land Use, Proc. Fifth No. Amer. Forest Soils Conf.*, (ed.) C. T. Youngberg, 341-56.
30. De La Fuente, M. A. S., and R. J. Marquis. 1997. Sources of variation in the efficacy of ant-tended extrafloral nectaries as an antiherbivore defense for *Stryphnodendron microstachyum* (Leguminosae). In: *Tropical Diversity Origins, Maintenance, and Conservation. ATB & OTS Symposium and Annual Meeting Abstracts*, 50, San José: Organization for Tropical Studies.
31. Delgado Hidalgo, G., G. Soto Muñoz, M. Dormond Herrera, and F. Montagnini. 1997. Mixed and monoculture forest plantations over the litter arthropod diversity. In: *Tropical Diversity Origins, Maintenance, and Conservation. ATB & OTS Symposium and Annual Meeting Abstracts*, 50, San José: Organization for Tropical Studies.
32. Delgado, J., G. Soto Muñoz, and F. Montagnini. 1996. Impacto de plantaciones forestales de especies nativas en monocultivo y en forma mixta sobre las poblaciones de microartrópodos del mantillo. In: *Congreso Nacional Agronómico y de Recursos Naturales X / Congreso Nacional de Fitopatología III / Congreso Nacional de Suelos II. (¿Puede la agricultura sostenible ser competitiva?). Memoria*, eds F. Bertsch Hernández, W. Badilla, J. E. García González, and E. Bornemisza Steiner, 96, San José: EUNED / EUNA.
33. Denslow, J. S., and G. Chaverri. 1993. The effects of topography and soil type on the composition and diversity of a neotropical rain forest understory . In: *The Association for Tropical Biology & The Organization for Tropical Studies Annual Meeting. Abstracts*, 60, San Juan, PR: ATB/OTS.
34. Dewalt, S., K. Ickes, and J. S. Denslow. 2001. Test of the release from natural enemies hypothesis using the invasive tropical shrub *Clidemia hirta*. In: *Annual Meeting of The Ecological Society of America. 86th, Abstracts*, Madison, WI: The Ecological Society of America.
35. Drake, J. B., R. O. Dubayah, R. G. Knox, and D. B. Clark. 2001. Relationship between vertical canopy profiles and biomass in a neotropical rainforest. In: *Annual Meeting of The Ecological Society of America. 86th, Abstracts*, Madison, WI: The Ecological Society of America.
36. Dubayah, R. O., S. D. Prince, J. B. Blair, R. G. Knox, D. B. Clark, and J. F. Weishampel. 1998. The Vegetation Canopy Lidar Mission: canopy structure from La Selva, Costa Rica . In *Forest Canopies Conference 1998: Global perspectives. Abstracts*, p.275 Selbyana 19 (2).
37. Dupuy, J. M., and R. L. Chazdon. 1997. Effects of experimental manipulations of light availability on woody regeneration in four secondary forest stands. In: *Tropical Diversity Origins, Maintenance, and Conservation. ATB & OTS Symposium and Annual Meeting Abstracts*, 54, San José: Organization for Tropical Studies.
38. Dupuy, J. M., and R. L. Chazdon. 1999. Experimental studies of tree seedling recruitment in secondary wet forests in NE Costa Rica . In: *International Botanical Congress. XVI*. St Louis, MO: International Botanical Congress.

39. Engelbrecht, B. M. J. 1998. Diversity, abundance, and distribution of co-occurring Piper species in the understory of two neotropical rainforests with different rainfall regimes. In: *The Association for Tropical Biology & Annual Meeting of the American Institute of Biological Sciences. Abstracts*, 26. Baltimore, MD: ATB/AIBS.
40. Enríquez Rocha, P. L., and H. Mikkola. 1997. Comparative study of general public owl knowledge in Costa Rica, Central America and Malawi, Africa. In *Biology and Conservation of Owls of the Northern Hemisphere. II International Symposium* US Department of Agriculture, Forest Service, North Central Research Station.
41. Enríquez Rocha, P. L., and J. L. Rangel Salazar. 1997. Intra-and interspecific calling in a tropical owl community. In *Biology and Conservation of Owls of the Northern Hemisphere. II International Symposium*, 525-32 US Department of Agriculture, Forest Service, North Central Research Station.
42. Espinoza Camacho, M., and R. Butterfield. 1990. Adaptabilidad de 13 especies nativas maderables bajo condiciones de plantación en las tierras bajas húmedas del Atlántico, Costa Rica. In *Manejo y Aprovechamiento de Plantaciones Forestales con Especies de Uso Múltiple. Actas Reunion IUFRO, Guatemala, Abril 1989*, (ed.) R. Salazar, 159-72, Turrialba, C.R.: C.A.T.I.E.
43. Ewel, J. J. 2001. Complementarity, compensation, & competition: what goes around, comes around. In: *Annual Meeting of The Ecological Society of America. 86th, Abstracts*, Madison, WI: The Ecological Society of America.
44. ———. 1997. Ecosystems processes and the new conservation theory. In *Ecology and the new conservation theory. Proceedings of the VI Cary Conference*, eds S. T. A. Pickett, R. S. Ostefeld, M. Shachak, and G. E. Likens, 252-61, New York: Chapman and Hall.
45. Ewel, J. J., and M. Cifuentes Jara. 1997. Competition from below. In: *Tropical Diversity Origins, Maintenance, and Conservation. ATB & OTS Symposium and Annual Meeting Abstracts*, 54, San José: Organization for Tropical Studies.
46. Ewel, J. J., M. Cifuentes Jara, and A. J. Hiremath. 1997. El mito de la luz como limitante del crecimiento: efecto de la competencia por nutrientes sobre los árboles. In *III Congreso Forestal Nacional*, 305-7, San José: Impresos Belén.
47. Faivre, A. E. 1997. Variation of the plant sexual system heterostyly in differently related species of Rubiaceae and Acanthaceae. In: *Tropical Diversity Origins, Maintenance, and Conservation. ATB & OTS Symposium and Annual Meeting Abstracts*, 55, San José: Organization for Tropical Studies.
48. Farji Brener, A. G., and C. A. Medina. 1997. The importance of where to dump the refuse: seed banks and fine roots in nest of Atta cephalotes and Atta colombica . In: *Tropical Diversity Origins, Maintenance, and Conservation. ATB & OTS Symposium and Annual Meeting Abstracts*, 55, San José: Organization for Tropical Studies.
49. Fernandes, D. N., and R. L. Sanford. 1993. Effects of recent land use practices on soil nutrients and succession under tropical moist forest in Costa Rica. In: *The Association for Tropical Biology & The Organization for Tropical Studies Annual Meeting. Abstracts*, 69 San Juan, PR: ATB/OTS.
50. Ferris, J. S. 1998. High resolution multispectral analysis of a Costa Rican lowland tropical forest. In: *The Association for Tropical Biology & Annual Meeting of the American Institute of Biological Sciences. Abstracts*, 6, Baltimore, MD: ATB/AIBS.
51. Fetcher, N. 1993. Light regime and daily carbon gain of seedlings in lowland tropical forest . In: *The Association for Tropical Biology & The Organization for Tropical Studies Annual Meeting. Abstracts*, 71-72 San Juan, PR: ATB/OTS.

52. Finegan, B., L. D. Delgado Rodríguez, and N. A. Zamora Villalobos. 1997. Floristic patterns in space and time in five secondary Costa Rican rain forests, 1987-1996 . In: *Tropical Diversity Origins, Maintenance, and Conservation. ATB & OTS Symposium and Annual Meeting Abstracts*, 56, San José: Organization for Tropical Studies.
53. Flamm, B. R. 1992. Limiting factors in the establishment, growth, and survival of rare canopy trees in a tropical wet forest. In *Biogeography of Mesoamerica. Proceedings of a Symposium* , (eds.) S. P. Darwin, and A. L. Welden, 101-10New Orleans: Tulane Univ.
54. Fogden, M. 1989. From eggs to legs. *Natural History* 2/89: 112-13.
55. Franz, N. M. 1997. La biología floral de algunas especies de Cyclanthaceae y la historia natural de sus curculiónidos asociados (Coleoptera: Curculionidae). In *IV Congreso Costarricense de Entomología*, p.36, San José: ASENCO.
56. Gartner, B. L., and D. C. Baker. 1997. Can tropical plantations provide the same quality wood as natural forests: a study in wood density variation. In *IUFRO Conference. Forest Products for Sustainable Forestry*IUFRO.
57. Gerwing, J. J. 1993. Bioassay of competitive effects in young tropical tree plantations. In: *The Association for Tropical Biology & The Organization for Tropical Studies Annual Meeting. Abstracts*, 81San Juan, PR: ATB/OTS.
58. González Jiménez, E. 1993. Recolección y germinación de semillas de 26 especies arbóreas del bosque húmedo tropical . In: *Convención Centroamericana de Semillas Forestales. II. Memoria*, 190-196Siguepeteque: Grupo Centroamericano de Semillas Forestales.
